An Interactive Book for Young Men
on the Orthodox Christian Faith

Forged was designed to be used within an Orthodox church group of young men from teens to early college age over a period of weeks or months, but it easily adapts for families to share at home. Topics include: identity, developing positive habits, controlling use of technology, breaking the cycle of pornography, harnessing emotions, spiritual warfare, and nurturing healthy relationships.

Forged compliments our book Woven which was created for teen - early college age Orthodox young women.
